## AVA VICE CHAIR - SUSAN MEDLIN

### TEXAS TRAIL ROUNDUP

We had a wonderful time at the Texas Trail Roundup IML walking event in San Antonio, February 18-20, 2022. The weather cooperated; cool mornings and warm sunny afternoons. We had 170 participants, including international walkers from Canada, France, Germany, Ireland, Israel, The Netherlands, Norway, and Switzerland. The Military Marathon contest was won by the Viking Strollers, a group made up of several nationalities. Hermann Sons provided a lovely venue and the Start/Finish was held in their ballroom. In the evening, the River Walk was a short stroll away, the Rathskeller in the basement was open, and a number of folks enjoyed the San Antonio Stock Show & Rodeo.

At our opening ceremony on February 18, visitors were greeted by Nancy Wittenberg (AVA Chair/President), the Honorable Marialyn Barnard (Bexar County Commissioner Precinct 3), John Courage (City Councilman District 9) and the Honorable Rebecca Simmons (Executive Director, Old Spanish Missions).

Andy Thomas designed a very nice new 10km/5km walk route for our Friendship Walk on Friday, focused on new art work and local history. Everyone enjoyed it.

Susan Medlin altered the Marathon route slightly, removing Stenson Airfield and Mission San Jose Cemetery and adding a walk through the new San Pedro Creek Project. In 2023 the Marathon moves to a one-way route designed by Jim Tree. We will bus Marathon walkers to the Pleasanton Trail Head near the shores of Lake Mitchell. Marathon walkers will walk 42 km back to San Antonio. Several of us have biked this route already. It will mean more checkpoints need to be set up on Saturday, but it should be a lovely change of pace.

At the closing ceremony, we thanked everyone who came, particularly those who flew in from overseas or came in from the East and West Coasts. The US Travel Restriction wasn't lifted until November 2021, so it was hard to plan a big trip. And most people decided to wait until 2023, when they could enjoy a week of walking with the 2023 IVV Olympiad & TTR IML. It's a logical decision, but we still needed to host an event in 2022 and hope to make enough to keep our club financially viable so we could make it to 2023. Many thanks to everyone who came and helped us meet that goal.

Mark your calendars for February 19-26, 2023. San Antonio is the place to be!

### THE NEW ESR ON MY.AVA.ORG.

The new ESR system is ready to go... finally. This last major step to retiring the legacy system has taken a little under a year to accomplish. Just one web page, the main ESR edit page, is 250,000 characters of code on my.ava.org. This is above all of the existing work that we are currently doing.

As you can imagine this effort will not be seamless as we deploy all of this new code. We do ask that if you come across anything that doesn't work as you would expect, to let me know using the "Contact us" form (lower right of web page) Please use "Save/Review" before switching to a different tab or leaving a contact us message.

Chris Zegelin and Holly Pelking at the Texas Trail Roundup packet pick-up in San Antonio

The transition started Monday March 7th where the legacy system access was turned off and is expected to be completed by Friday March 11th. We will allow a few days for the database synchronization to complete. Some of this is manual work. It may take a bit longer.

The two main pages for the ESR are found under the "Sanctions" tab in your club's home page. With a click you will be taken to "Edit / New". The two top sections of this page, "New events to be completed" and "Editing current sanctions" will cover most of what a typical club will need in the next 6 months.

The design of this new ESR is very different from the legacy system. One tester that had never created a sanction before but had read them over the years reported that "it was intuitive and easy to use". This is with no training... Not everyone will have the same experience, but the design is intended for people who create sanctions infrequently. It takes you step by step through the whole process.

Let's edit an existing sanction. Click the (second) "Sanctions" tab (between Up and Edit / New). This is a list of all of your club's current, approved sanctions. Choose one and click "Edit". You are now looking at the sanction in the edit page. Click on any of the "Sanction tiles" to see the whole sanction under edit. You will note that certain items in the sanction cannot be changed. Click "Save / Review" even if you made some changes to the sanction (for fun).

This is where the new design differs from the legacy system. The sanction you saved was not sent back to the approved list, rather it goes into the 'event buffer' table. The 'event buffer' is your "sandbox" where you can create, modify, and review a sanction until it is ready to be published. It is only when the event is published that the result is seen by the public. In most cases publishing is done by the RD as they approve the sanction. Changes to approved sanctions that do not require RD approval can be published directly by the club.

Feel free to play knowing that none of your playing will impact your clubs existing sanctions. The system is live however, so clicking "Publish" or "Req Approval" will do what you expect. As you review a sanction, you will see change and error bars on the left of a field. This helps you know what you have changed, and what errors need be fixed before you can publish the sanction.

**IMPORTANT:** This new ESR closes a few major security holes in the legacy system. While editing a sanction, you must regularly (10 to 15 minutes) click "Save / Review". We currently do not have an auto save feature. This feature would have delayed the new ESR by many months.

Over the coming months we will listen to the comments, make subtle changes to the design and fix any problems that are encountered. Lastly you must try “New event – copy previous” under “Edit / New”. Most clubs have recurring traditional events and this feature will save you considerable time.

If you have anymore questions or would like to see a demo of the New ESR system please register for this months Zoom meeting on March 16, 2022. Details below.

Beginning the weekend before the conference and continuing to the end of September, the walks will be available online. For those unable to join us in June you'll still have a couple extra months to travel to the Ashland area to enjoy the events.
